

JUNIOR "F" CLASS Coaching Clinic, Canberra 2018

Two things prompted this idea. Firstly, it is probable that there will be a junior competition at the next World "F" class championships. Then the NSWRA moved the Queen's Prize meeting to the school holidays. However, logistical complications rendered the Malabar Range impractical as a venue. We were able to secure the use of the Canberra Range for the three days leading up to the NSW Queen's.

The proposal is for juniors aged 18 and under to participate in a State Team Match consisting of "F" open and "FTR". Sunday 30th of September (pm) will be a meet and practice; Mon 1st Oct will be the main match, followed by an additional Match on Tuesday morning. This will then allow ample time to travel to Sydney for the Queens.

Our aim is to have a pool of "Team Ready" junior shooters available for the next "Worlds", and to present a career path for them to pursue. NSW, Vic. and SA are already on board; however any juniors from other State Associations will be most welcome. While we are looking at three person teams, everyone who turns up will be fitted into a team and given coaching and shooting opportunity.

All shooting will be on manual targets, as is the case at world championships. The exercise will be run by the NSW "F" Class Assn at minimal cost. I am calling on any and all NSW shooters who have the time to please come along and help with this important initiative.

There will be a perpetual trophy and individual awards for the successful team members.

Greg Warrian.....Pres.
